## Revision History

Revision	Date	Description	By
1	12/17/2018	Initial Installation Guide for COD3BR3AKR System	Diverse Engineers

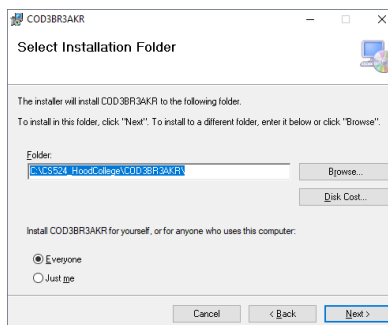

1 – Download the installer from the GitHub Repository at following link;  
[https://github.com/Jacob13209/CS524\\_COD3BR3AKR/tree/master/Installation](https://github.com/Jacob13209/CS524_COD3BR3AKR/tree/master/Installation)

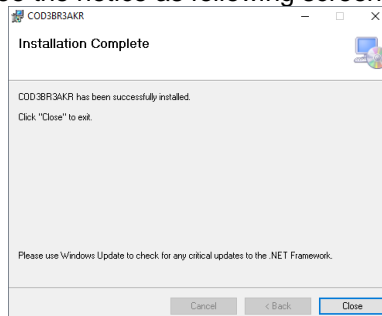

2 – Double click on the [COD3BR3AKR\\_Installer.msi](#) to start the installation process.

3- Click on Next to continue. The default installation folder is “C:\CS524\_HoodCollege\COD3BR3AKR”. See following screenshot for details, you can also browse a different folder for installation by clicking on the ‘Browse’ button. Click on Next to continue.

4- Once installation complete, you will see the notice as following screenshots.

5- Click on Close to finish the installation. There would be a short cut generated on the Desktop that you can access the system by double click on the shortcut.
